Mr. McClure,

Thank you for your response. I will go ahead with the examiner's amendment to the claim as written below and issue the notice of allowance today. Furthermore, I will amend claim 1 with option (2) i.e. 2) "wherein based on the value of the estimated carrier frequency offset, the phase rotator ..."

Regards,
 Sudhanshu C. Pathak

Examiner Pathak:

We agree with your suggested amendments to place this application in condition for allowance. Specifically, this includes:

1. Amending independent claims 1, 6, and 9 to incorporate the subject matter of claims 4 and 5.
2. Amending independent claim 12 to incorporate the subject matter of claim 19.
3. Amending independent claims 20 and 25 to incorporate the subject matter of claims 23 and 24; and
4. Amending independent claim 27 to incorporate the subject matter of claim 29.

In addition, we would like to make a minor additional amendment to claim 1. Specifically, we would like to change the language of the last phrase from: "wherein based on the magnitude of the carrier frequency offset, the phase rotator ... " to either:

- (1) "wherein based on the estimated carrier frequency offset, the phase rotator ..." or
- (2) "wherein based on the value of the estimated carrier frequency offset, the phase rotator ..."

If you prefer that I put together a comprehensive claim listing to embody all of these amendments, I'll be happy to do so. It will likely be tomorrow before I can get to it, due to meetings and deadlines that I have in my schedule today.

Regards,
 Dan McClure

Hi Examiner Pathak:

I just received your voice message (which you left for me yesterday), following up on our telephone conversation of last week. I have not yet heard from the client, and have sent them a follow-up email. I have told them that, unless I hear otherwise from them by Thursday morning, I will instruct you to mail another Office Action. Hopefully, I'll have an affirmative answer for you before then.

best regards,
Dan
